

OCCUPATIONAL HEALTH & SAFETY POLICY

At Drainline, we have over 40 years industry specific experience and expertise to look after all your plumbing and drainage needs. Drainline services a diverse customer base including residential home owners, water corporations, councils, developers, commercial and industrial businesses, construction companies, project engineers, asset managers, owner's corporations and our fellow plumbing business.

Drainline aims to have a positive safety culture that is committed to:

- Complying with all applicable health and safety legal and other obligations by keeping up to date with the latest legislation requirements.
- Establishing measurable objectives and targets by monitoring and reporting all safety incidents and accidents aimed to reduce the likelihood of recurrence and to eliminate work-related injury and illness
- Promoting and working together to provide a safe working environment for all personnel within works locations associated with the organisation.
- Working with our clients, contractors and stakeholders to help them achieve their health and safety requirements and objectives.
- Adopting a communicative and consulting approach to safety throughout the organisation in providing training, information to employees and subcontractors to undertake their work activities in a safe and healthy environmental
- Providing and maintaining the best practice health & safety standards
- Continuous improvement of the Safety Management System through regular evaluation, audit, review and customer /employee satisfaction with regard to safety performance

Drainline is committed to continual improvement of safety performance.

This policy will be reviewed annually by top management and will be communicated to all staff and external providers and be available to interested parties upon request.
